

RUGGED DRIP OIL

Rugged Drip Oil is a light colored premium anti-wear oil made from paraffin distillate stocks with excellent stability. In addition to the effective anti-wear additives, it is rust and oxidation inhibited and contains a select anti-foamant.

Rugged Drip Oil has a natural high viscosity index and a low pour point to accommodate the most severe of temperature ranges.

TYPICAL PROPERTIES	
Color, ASTM	1.0
Gravity, Deg API	30.5
Viscosity index	95
Viscosity cSt	
@ 40 deg C	32.4
Flash Point, deg F	385
Pour Point, deg F	-30
