

## **Silver State Full Synthetic Automatic Transmission Fluid**

**For California Only**

**Silver State Full Synthetic Automatic Transmission Fluid** is a full synthetic ATF that is designed for use in automatic transmissions in most domestic and import passenger cars and light trucks. **Silver State Full Synthetic ATF** provides superior thermal stability and anti-wear protection. Its frictional properties provide smooth shifting and excellent anti-shudder performance in a wide range of vehicles.

### **BENEFITS:**

- Guarantees peak transmission performance during high temperature operation
- Excellent anti-wear protection; increases transmission life
- Outstanding oxidative stability, foam resistance and corrosion control
- Excellent shear stability to ensure a long service life
- Maximum protection for towing and severe service
- Improved shift quality

**Silver State Full Synthetic ATF** is a full synthetic ATF designed for most conventional planetary gear transmission applications and meets JASO M315-2013, Class 1A-LV requirements. This product is NOT recommended for Ford Type F, Continuously Variable Transmissions (CVT) or Dual Clutch Transmissions (DCT) which require specialized Original Equipment Manufacturer (OEM) licensed products.

**Silver State Full Synthetic ATF** has undergone extensive testing for a broad range of transmissions but is not an OEM licensed product. The respective vehicle manufacturers have not endorsed or evaluated **Silver State Full Synthetic ATF** in these applications. If an OEM Licensed product is preferred, contact your local distributor for information on obtaining an OEM licensed product.
